

Index to the Scottish Farm horse tax rolls 1797-1798 containing the surname JACK

The farm horse tax rolls (National Records of Scotland, E326/10) list the names of the owner and number of horses and mules used in husbandry or trade in 1797-1798. In some rolls the tax inspectors made repeat visits to track down non-payers, which explains why some parishes and burghs are repeated. The listing below is that of the original rolls.

These indexes show name and place and do not include number of horses or tax paid. You will need to refer to the source below for these details.
